Dear Customer,

Through recent negotiations, Pierce Point Laser has acquired the Forest Industries croquet line from Saunders Brothers. Our collaborative efforts mean that Saunders Brothers will continue to manufacture the high quality wood components of this line, while Pierce Point Laser will market these croquet sets. Our companies both represent continued high quality products and customer service.

As the spring season is upon us we look forward to offering the same model croquet sets under the new brand name of North Meadow Croquet. We anticipate offering a couple of new models within a year that are sure to be a hit. We will continue to manufacture all our sets in the U.S.A. and import only minor component parts when necessary.
