Re: Hilton Mallet Heads

As part of our commitment to provide the highest quality products, The North Meadow Croquet Co. began manufacturing the laminated Hilton mallet heads "the old fashion way". This would be the same way the Paris Mfg. company had produced them in it heyday.

Starting this Spring we now router all twelve edges of the mallet head giving it the quality and craftsmanship our premier set deserves. Together this improvement with our new "spray" finish from our electro-static finishing line gives the mallet head the same look, feel and durability of the mallet heads previously produced by the Paris Mfg. company.

These improvements are part of our ongoing commitment in supplying the highest quality products that we are proud to say are "Made in the USA"!

Regards,

Dale Pierce
